

Amendments to the Specification

Change the paragraph 0045, as follows:

[0045] A check valve 6B is disposed at the communicating portion, and a rod-shaped gas generator 3 is disposed therein. The gas generator 3 is disposed so that a longitudinal direction thereof is aligned in a vertical direction. The gas generator 3 is provided with gas ~~injecting~~ ejecting sections 3b at an upper and a lower ends thereof. The gas ~~injecting~~ ejecting section may be provided at only one end.
